SUMMARY

I'm Azhaan Shaikh, a SaaS Product Designer specializing in AI-driven product design, human-AI interaction, automation systems, and intelligent interfaces. I design scalable solutions that convert, and are fast, intuitive, and future-facing. I work across Product teams, for interaction, AI facing UX, Systems Thinking, and Product Management. My approach blends research, system architecture, and rapid prototyping to create products that are technically strong and visually sharp. I focus on turning complex AI technologies into usable, high-impact tools.

TECHNICAL SKILLS

System Design	System Thinking	Accessibility
Mixed Mode Research	Interaction Design	Branding & Visual Systems
Responsive Prototyping (Figma, etc.)	No-code Platforms	Motion Graphics (After Effects)
Information Architecture	Usability Testing	Creative Direction

PROFESSIONAL EXPERIENCE

Founder & Lead Product Designer, DevKnight Oct 2025 - Present

- Building an AI-driven product studio focused on intelligent systems and UX tools.
- Leading user centric design and co-development of agent-based products integrating workflow automation and mcp.
- Handling a clientele of 15+ from 3 countries, within 2 months of beginning operations.

Head of Design, Seetusk Creative Agency Oct 2025 - April 2026

- Built and led the SCA brand identity from the ground up, defining its visual and strategic direction.
- Built the SCA website, boosting lead generation by 40% with UX-focused redesign.
- Directed end-to-end design execution across digital, product, and campaign touchpoints.

Founding Designer, GINX Clothing Jun 2023 - Dec 2024

- Designed and developed the GINX Clothing brand identity, blending street culture with minimal modern aesthetics.
- Directed product visuals, campaigns, and e-commerce design to establish a cohesive streetwear presence.
- Built the digital and social design language, driving brand recognition and early customer traction.

Visual Comm. Design Intern, Lemon Design May 2023 - Aug 2023

- Worked on visual language and collaterals for multiple brands.
- Created social media content for the Humane Collective, (sub brand)
- Created Motion Graphics for brand work showcases.

EDUCATION

Bachelors in User Experience Design, MIT WPU | GPA: 9.48 Aug 2023 - Sep 2027

Hands-on experience in user research, interaction design, wireframing, prototyping, and usability testing. Skilled in translating business goals into intuitive digital products through data-driven design, rapid iteration, and cross-functional collaboration. Proficient in Figma, design systems, and end-to-end product design workflows.

Extra Curriculars

-R.I.D.E. Event 2023 & 2024

- Senior Visualizer & Motion Designer
 - Delivered high-quality motion graphics, visual storytelling assets, and campaign visuals for university-led initiatives. Managed concept development, wireframes, and motion systems that improved engagement across digital and event platforms.

ISC 12th Commerce, The Bishop's School Camp

May 2014 - May 2016

ISC (Class XII) – Commerce

Studied Accountancy, Economics, Business Studies, Mathematics, and English, building a strong foundation in financial analysis, business fundamentals, and quantitative reasoning. Developed analytical thinking, structured problem-solving, and clear written communication skills applicable across business and tech-driven roles.

RESEARCH PROJECTS

• Craving Prediction — Food Preference & Behavioral Research Project

Semester 2

Researched how food cravings evolve over time by analyzing consumption history, seasonal shifts, physiological patterns, and contextual data. Proposed a predictive framework using pattern recognition and frequency plotting to anticipate short-term and long-term cravings, enabling hyper-personalized dining recommendations beyond generic location- and rating-based systems.

• Receding Cultural Heritage Upholding in Pune

Semester 3

Conducted field-based research to study the gradual erosion of Pune's cultural practices amid urbanization. Mapped stakeholder perspectives, documented intangible heritage gaps, and translated insights into experience-led interventions focused on awareness, preservation, and community participation.

• Bovine Abandonment in Urban India

Semester 4

Researched the causes and systemic impact of bovine abandonment in cities, examining policy gaps, economic pressures, and public infrastructure failures. Synthesized qualitative interviews and secondary data into problem frameworks and design-led solution opportunities for civic and animal welfare systems.

• Clause — Legal UX Research Project

Semester 5

Led UX research for an AI-powered legal analysis platform aimed at visualizing contract bias, risk, and fairness. Defined user pain points around legal comprehension, built clarity-first information hierarchies, and translated complex legal structures into accessible, negotiation-focused user experiences.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Marathi, Gujarati
- **Certifications**
 - DV0130: Data Visualization and Building Dashboards with Excel and Cognos
 - EDUC833: Introduction to Social-Emotional Learning (SEL)
 - LEAD102: Teamwork & Collaboration
 - LEAD103: Critical Thinking & Problem Solving
 - SDGi001: Measuring Sustainable Development
